

## Warranty extension for Weigh In Motion products

Type 9965F/E...

Get up to 5 years of protection on Kistler WIM equipment. The Warranty Extension prolongs the standard warranty period for Kistler Weigh In Motion products for additional years of care free operation. This services is available worldwide.

The Kistler Warranty extension Service will:

- Provide security and long-term care free operation of your WIM system
- Minimize the risks of system down time caused by defective products
- Replace defective products free of charge during the full warranty period
- Allows extension of the warranty period to up to 5 years

### Description

The standard Kistler warranty period is 1 year, with the warranty extension this period can be increased to 2, 3, 4 or 5 years. Our warranty policy guarantees fast and free replacement of the Kistler products in case of defect. This way your system will operate smoothly and successfully throughout the life span of your WIM system with a minimum of down time.

The Warranty Extension Service must be ordered simultaneously with the product purchase (same order). Subsequent purchase of an extended warranty is not possible.

### Applications

The service is specifically recommended to minimize the risk for any application where a high system up-time is required such as weight enforcement, industrial weighing or toll by weight.

Note: The latest edition of the Terms and Conditions of Warranty (doc. No. 960-374) applies for all WIM equipment.
